

MEDICAL FUND IMPACT REPORT JANUARY 2025

HIPPO

Hippo, a 2-year-old exotic micro bully, overcame severe neglect and painful infections through urgent medical care and dedicated support, ultimately finding a loving home and inspiring others to support animal rescue and adoption.

PEBBLES

Pebbles, a 1-year-old cat, survived a life-threatening bowel obstruction and emergency surgery, making a full recovery and showcasing the vital role of specialized rescue efforts and compassionate support.

MAYA

Maya, a 5-year-old English Bulldog with chronic allergies, has found her perfect forever home with a bulldog-experienced family who understands her needs, and is now thriving—showcasing the incredible difference a loving, dedicated family can make in the life of a special-needs pet.

SORAYA

Soraya, a critically ill cat who gave birth while battling Calici Virus and pneumonia, bravely fought through her illness. Despite losing her kittens, she made a remarkable recovery with intensive care and, thanks to community generosity, is now thriving in her forever home.

MEDICAL FUND IMPACT REPORT JANUARY 2025

MOO SHU

Moo shu, an 8-year-old English Bulldog, was rescued after years of neglect, suffering from severe ear and skin infections, malnourishment, and painful cherry eyes. Thanks to dedicated medical care and support, he has fully recovered and is now thriving.

LEGOLAS

Legolas, a resilient kitten found trapped in freezing temperatures with a severe leg injury, received life-saving surgery and is now thriving. Adopted into a loving home, he's living his best life as Moon with his new sister, Maggie.

LOLA & LEX

Lola and Lex, a mother-and-puppy duo rescued from neglect, overcame their rough start with the care they needed to grow healthy and strong, with Lola overcoming anxieties and Lex discovering his playful side. Their story highlights the importance of spaying/neutering and responsible pet ownership.

AGNES

Agnes, a sweet and shy bulldog mix discarded after a life of breeding, is now in a loving home where she's slowly learning to trust again, receiving the care, diet, and exercise she needs while her heart murmur is monitored as she heals.

MEDICAL FUND IMPACT REPORT JANUARY 2025

SAMMY

Sammy, a tiny puppy born with a life-threatening condition, underwent surgery to repair his rectal area and is now recovering with ongoing care. Though his future remains uncertain, this brave little fighter has a chance at a full and happy life thanks to continued medical support.

MAX

Max, a 9-year-old Shih Tzu, was rescued in poor health due to neglect, obesity, and infections, including a painful ear mass needing surgery. Thanks to community support, he received treatment and is now thriving comfortably in his loving home.

CALI

Cali, a 4-year-old French Bulldog who became paralyzed after an injury, was rescued after surgery was no longer viable. Now called Cherry Cheesecake, she's thriving with her new family, gaining mobility through a wheelchair, physical therapy, and loving care.

MADISON

Madison, a 14-year-old dog who arrived at the shelter in poor health after the loss of her owner, received treatment for a urinary tract infection, Cushing's disease, and growths. She has since been adopted and is living a comfortable, happy life in her golden years.

MEDICAL FUND IMPACT REPORT FEBRUARY 2025

REBEL

Rebel, a 4-year-old Shih Tzu had made a full recovery following emergency surgery to remove hair ties from her digestive tract. Now a playful, spunky girl, she has found her forever home, where she is receiving the devoted care she deserves.

PHIL

Phil, an 8-month-old French Bulldog surrendered due to GI issues and suspected IBD, received specialized care and made great progress with the support of generous donors. He has since fully recovered and been adopted into a loving home, where he will be spoiled and cherished.

MCFLURRY

McFlurry, a 7-year-old poodle surrendered in poor health with a parathyroid tumor, underwent surgery to remove the tumor and give him a second chance at life. He is now recovering and settling into his forever home, where he will be loved and treasured.

TANK

Tank, an emaciated senior pit bull found wandering the streets of Newark, received urgent medical care to recover from neglect, parasites, and malnutrition. Thanks to generous supporters, he has made remarkable progress and is now adopted into a loving home where he continues to heal and thrive.

MEDICAL FUND IMPACT REPORT FEBRUARY 2025

SIMON & GARFUNKEL

Simon and Garfunkel received life-changing care thanks to generous donors—Simon bravely adapted to life on three legs after overcoming osteomyelitis, while Garfunkel recovered from entropion surgery. Both have since been adopted into loving homes, a testament to the compassion of the rescue community.

CINNAMON

Cinnamon, a 7-year-old yellow lab diagnosed with heart failure, was heartbroken and confused upon surrender, but received the care and comfort she needed thanks to devoted donors. She has since found a compassionate hospice home, where she'll be cherished.

LUNA

Luna, a 1-year-old Doberman, overcame painful sores and skin infections caused by prolonged crating and is now healthy, happy, and full of life. She's ready for adoption and looking for a loving home where she can continue to thrive.

EMILY

Emily, rescued after 14 years of neglect, suffered from chronic ear infections, arthritis, and an injured tail. Thorough medical care, including a tail amputation, she's now healing and thriving. She's found a loving home to cherish her for the rest of her life, thanks to the support that made her recovery possible.

MEDICAL FUND IMPACT REPORT MARCH 2025

FREDDIE MERCURY

Freddie Mercury, an 8-month-old pug with a vibrant personality, was rescued after suffering frequent seizures. Now seizure-free with proper medication, he thrives despite visual impairment—enjoying toys, walks, and social time. Though he'll need ongoing care, Freddie fills his home with joy and love.

MADDIE

Maddie, a 3-year-old micro bully, was rescued from a life of overbreeding and a severe uterine infection. After emergency surgery and care, this sweet, timid girl is now healing and has found a loving forever home, thanks to your support.

OBI

Obi, a 12-year-old beagle, was surrendered when his family moved abroad. Though living with a terminal chest mass, he remains happy, active, and affectionate. Now in a loving home, Obi is enjoying his golden days, proving that every dog deserves to be cherished, no matter their age or diagnosis.

KIWI

Kiwi, a 2-year-old dog rescued from neglect, suffered from severe skin infections and scars from a past C-section. Despite her difficult past, she remains a sweet and loving soul. Thanks to the support of compassionate donors, Kiwi has found her forever home, where she'll be cherished, spoiled, and loved for the rest of her life.

MEDICAL FUND IMPACT REPORT APRIL 2025

TANK

Tank, an emaciated senior pit bull, was found wandering the streets of Newark—starving, anemic, and covered in scars from a lifetime of neglect. With devoted care, Tank began a remarkable recovery, gaining strength and showing his gentle spirit. Today Tank is living his best life in a loving forever home.

MCFLURRY

McFlurry was surrendered with a life-threatening parathyroid tumor. Thanks to your support, he underwent successful surgery to remove the tumor and made a full recovery. Now renamed Marshmallow Flurry, he's been adopted by a member of his medical team and is thriving in a loving home.

BIANCA

Bianca, a young Shih Tzu, came to us after a traumatic injury left her with a damaged eye and head trauma. With you by her side, she received surgery and care to help regain mobility. Bianca has been adopted into a home that embraces special-needs pets where she's continuing her healing journey surrounded with love.

GARRETT

Garrett, a young blind cat, was found in critical condition—sick, filthy, and suffering from a ruptured eye. He received emergency enucleation surgery and treatment for a severe upper respiratory infection. Today, Garrett is safe, healing, and finally free from pain—proof that your compassion transforms lives.

MEDICAL FUND IMPACT REPORT APRIL 2025

FLASH

Flash arrived in critical condition after being hit by a truck and left without care overnight. This sweet Schnauzer was suffering from internal bleeding, a fractured leg, and severe jaw swelling. With emergency treatment, Flash began to heal and is thriving in a loving home with his doctor. His resilience and remarkable recovery are a powerful reminder of the lives your compassion makes possible.

KARINA

Karina, a blind senior mama dog was left behind when her owners moved. She came to us confused and in urgent need of care. Since arriving at RBARI, she has begun her journey toward healing, receiving treatment for dental disease, dry eye, and other complex medical conditions. With your support, Karina is finding the gentle care she's always deserved, reminding us that it's never too late to give a mother the love she gave so freely.

TIKI AND KITTENS

Tiki, a young mama cat, was found in distress while giving birth outside. She was rushed to the hospital, requiring a C-section to save her kittens. Tiki is now healing in foster care with her babies, safe and surrounded by love. Her rescue highlights the urgency of kitten season and the critical difference your compassion makes for vulnerable mothers and their newborns.

ELLA

Ella, a gentle golden retriever, arrived paralyzed and in excruciating pain from a rare, life-threatening case of tetanus. Her only chance was intensive, around-the-clock specialty care. Ella is healing slowly in foster care with one of her doctors. Her journey isn't over, but your support gave her the chance to keep fighting.

MEDICAL FUND IMPACT REPORT MAY 2025

OAK & ASPEN

Oak and Aspen were just 4 weeks old when they were rescued from animal control battling panleukopenia—a deadly virus for kittens. Weak, anemic, and suffering from severe diarrhea, they were rushed into intensive care at the hospital, where they received lifesaving treatment. Because of your kindness, these tiny fighters had a chance to stabilize and begin their long road to recovery.

KOBE

At 4 months old, Kobe faced euthanasia after swallowing a sock—for the second time in a week. Thanks to your support, he received emergency surgery and made a strong recovery. Your generosity gave this oversized puppy the second chance he desperately needed to find a forever family that could keep up with his endless energy. Happy life Kobe!

PLUTO

Pluto, a scruffy 2-3-year-old pup full of personality, arrived with serious medical needs. He was diagnosed with heart disease and underwent surgery to remove a blind, damaged eye. Now healing well and thriving on heart medication, Pluto remains as joyful as ever—and thanks to you, he will find the loving forever home he deserves.

PUDGE

Pudge was the final rescue from a large-scale hoarding case involving over 50 guinea pigs. Now safe and thriving, this sweet senior enjoys daily “spa time” with his nebulizer treatment, which helps manage his respiratory health. Though he has a few benign fatty lumps, he’s otherwise healthy — and full of love, snuggles, and happy wheeks for his favorite treats.

MEDICAL FUND IMPACT REPORT MAY 2025

BLOSSOM

Blossom arrived with severely overgrown nails and a timid, defensive demeanor—the result of neglect. It didn't take long for her affectionate, curious nature to shine through. After a challenging spay recovery, not uncommon in rabbits due to their fragility, she's thriving and delights with her flops, gentle affection, and playful energy. Blossom's resilience and charm make her truly unforgettable.

ROSE

Rose, a young French Bulldog, arrived in rough shape. She was suffering from chronic, untreated skin disease that left her raw and painfully itchy. With ongoing medicated baths, injections, and a specialized diet, she's comfortable and healing. Rose has since found a loving home where she is surrounded by the love she always deserved.

KAYA & PUPS

Kaya was rescued from a crowded shelter while in active labor, giving birth on a cement floor. She cared for her puppies with unwavering devotion, but her journey took a serious turn when she developed a severe mastitis infection that required two surgeries, a wound vacuum, and intensive hospitalization. Thanks to round-the-clock care, Kaya is healing well — a full recovery expected, and her big, healthy pit bull-husky mix pups are ready for adoption.

PEARL

Pearl, a 6-month-old Pomsy, was surrendered after suffering an untreated leg fracture for two weeks. She was moments from euthanasia when a compassionate vet intervened and reached out. Following orthopedic surgery, Pearl is healing and has found a home — finally safe, loved, and free from the pain she silently endured.

MEDICAL FUND IMPACT REPORT MAY 2025

HANK

Hank was found in a local cat colony with a severely swollen face and a body covered in scars—abandoned, sick, and far too gentle to survive on the streets. His facial abscess ruptured, but even in pain, he purred for affection. Now safe, Hank is on a long-overdue journey of healing and devoted care.

COOKIE

Cookie was just a baby when she was surrendered with a severe, infected wound that left her unable to urinate — requiring emergency surgery. Thanks to specialized care, both her colon and rectum were successfully repaired, and she's made a remarkable recovery. Cookie now charms everyone as our beloved office cat while she waits for the forever home she truly deserves.

DOODLE MIX PUPPIES

Missy, Lacey, and Luke, three Doodle mix puppies, were surrendered through local outreach, arriving matted, undersocialized, and in need of veterinary care. Thanks to your support, they received medical treatment, grooming, and the patient handling they needed to heal. All have since found loving homes, blossoming at their own pace — a testament to the power of community-driven rescue.

ROBERTA

Roberta, a tiny senior chihuahua found abandoned, is now safe and receiving comfort care as a hospice pup. Estimated to be in her mid-to-late teens, she has kidney disease, mammary tumors, arthritis, and vision loss — yet still delights in warm laps, soft beds, and short strolls. Roberta's spirit shines, and she'll spend her remaining days surrounded by love and kindness.

MEDICAL FUND IMPACT REPORT JUNE 2025

ACE + 11

Young mama Ace gave birth to an astonishing eleven kittens before being rescued. This is her second (and last) litter and now she and her babies are safe in foster receiving devoted care. With such a large litter, their care is intensive, but Ace's mothering and their growing strength remind us why local rescue matters.

FIDDLER

Fiddler was discovered alone on a rooftop — emaciated, full of hookworms, and barely surviving. Under a year old and dangerously underweight, he had clearly been struggling on his own for some time. With medical care, love, and time, Fiddler healed and has been adopted into a loving home, his journey from rooftop to forever family made possible by your kindness and support.

GOOSE

Goose, a senior French Bulldog, was found wandering the streets in heartbreaking condition. His paw pads were cracked and infected, his ears inflamed, and a raw growth on his shoulder left untreated. Quiet and withdrawn, his body bore the signs of long-term neglect — yet even in pain, he welcomed kindness. Now safe, Goose is receiving the medical care he's long needed and slowly learning to trust again — a quiet testament to the power of rescue.

PRESLEY

Presley, a sweet 3-year-old Shih Tzu mix, was surrendered for diarrhea, but an exam revealed congestive heart failure. He began a course of triple therapy and, despite the challenges ahead, quickly found a loving home where he now enjoys comfort, companionship, and care. His story shows how rescue gives even the most medically complex animals the chance to be truly loved.

MEDICAL FUND IMPACT REPORT JUNE 2025

SHADOW

Shadow was found collapsed with a severe, infected wound and no access to care—his condition urgent and heartbreaking. Thanks to our rescue network, he received emergency surgery and began healing. Now thriving, Shadow is enjoying affection and the safety he was once denied, with a full recovery well underway.

ROSEMARY

Rosemary, a frail senior Chihuahua, was found wandering with a massive, ulcerated mammary tumor, barely able to walk. After emergency surgery, a major dental, and compassionate foster care, she began to heal. Now safe and thriving, Rosemary has found her forever home at a senior sanctuary, where she'll spend her golden years surrounded by comfort and love.

LITTLE RICKY

At just 5 pounds and 10 years old, Little Ricky was found in heartbreaking condition, his jaw fractured by severe dental disease. After full dental extraction and pain management, he's thriving — toothless, drooly, and deeply lovable. This gentle senior is enjoying soft meals and soft beds for the first time in far too long.

REGINA

Timid and matted, Regina was left behind with Ricky when their owner moved away, having never received veterinary care. She underwent a much-needed dental and spay surgery and has since found safety and love in a new home. Her quiet resilience now shines through in the comfort of a family.

MEDICAL FUND IMPACT REPORT JUNE 2025

DAISY

Tiny, scruffy, and just 4 pounds, 10-year-old Daisy had never seen a vet before. Despite years of neglect, she remained sweet and trusting, and quickly captured hearts. After receiving essential dental care, Daisy was adopted into a loving home where she's finally being cherished.

CHOCOLATE

Chocolate, a senior Min Pin, came to us with severe dental disease and untreated anemia. After hospitalization and surgery, she's now healing well and soaking up affection. This gentle senior is calm, affectionate, and ready for the loving home she's always deserved.

DUCKY

Ducky, a young Frenchie with a waddle as unique as his personality, came into rescue suffering from severe regurgitation and sores — the tragic result of breeding. After surgery to correct his soft palate and a carefully managed diet, he's showing great improvement. Full of quirks, charm, and determination, Ducky is seeking a family that understands his special needs and loves him just as he is.

THUMPER

Thumper was just six weeks old when he was found alone in a yard, starving, sick, and struggling to breathe. Severely dehydrated and battling a serious respiratory infection, he required urgent, round-the-clock care to survive. Thanks to fast intervention and devoted care, Thumper now has the chance to grow up safe and loved.

MEDICAL FUND IMPACT REPORT JUNE 2025

MANDI

Mandi was found alone on the streets at just five weeks old, suffering from a serious jaw injury. A severe cartilage separation and exposed jawbone left her at high risk of bone infection. With your support, Mandi received urgent hospitalization, antibiotics, and daily wound flushes. She's now eating on her own and gaining strength, but continued monitoring is critical as she heals — and surgery may still be necessary if complications arise.

OTIS

Otis spent three long years surviving on the streets before arriving at RBARI with infected bite wounds and a severely swollen front leg. Despite all efforts, his leg couldn't be saved. His recovery has been challenging and required ongoing, dedicated care — but today, Otis is nearly healed. Through it all, he's remained gentle, loving, and full of affection. Now, he's ready for the comfort and safety of a home to call his own.

GEORGIE

Georgie, a senior pit mix, was found abandoned during a dangerous heat wave, struggling to walk due to severe untreated arthritis. Now in our care, he's receiving pain management, joint supplements, and supportive care to improve mobility. Despite his condition, Georgie remains sweet and affectionate, and we are actively seeking a home to provide him comfort in his golden years.

PANCAKE

Pancake, a five-year-old micro bully, was abandoned outside a local shelter in the heat, unable to walk or breathe properly due to deformities from irresponsible breeding. He has since been neutered and undergone successful soft palate surgery. While his mobility issues remain, Pancake has adapted well and continues to be playful and affectionate as he waits for a special home.

MEDICAL FUND IMPACT REPORT JULY 2025

DOLLY

Dolly's story began in heartbreak, rescued at 9 months old after living outdoors neglected in dangerous conditions. Severely underweight and battling pneumonia, Dolly was hospitalized and began a long journey toward healing. With time, care, and love, Dolly recovered and is thriving in a loving forever home.

PLEAKLEY

Pleakley's story began in an unlikely place — a feral cat colony, where this tiny domestic bunny was struggling to survive. Exposed to predators and harsh outdoor conditions, he overcame incredible odds. Thanks to swift rescue and compassionate care, Pleakley was given a new beginning. Now happily adopted, he's an affectionate companion who spends his days playing in the safety and love of his home.

MILKSHAKE

Milkshake's rescue was one of the most heartbreaking of the summer. Found trembling, emaciated, and unable to stand, this tiny poodle was rushed to the hospital. She fought bravely, surrounded by love. Her frail body could not overcome the neglect she endured, and she passed peacefully, cradled in compassion. Milkshake left this world knowing love, safety, and dignity at last.

MAMA BETTY

Mama Betty was found wandering the streets, her body bore the marks of years of neglect and breeding with open wounds and painful infections. With time, medical care, and love, Betty transformed from a weary, broken dog into a gentle, affectionate soul. After undergoing surgery to remove mammary tumors and decayed teeth, Betty is ready for a peaceful home where she can rest, surrounded by the kindness she has always deserved.

MEDICAL FUND IMPACT REPORT JULY 2025

GUCCI

Gucci arrived in rough shape, his inflamed skin and infected ears showing signs of long-term neglect. Despite his painful condition, this stocky Frenchie remained gentle and trusting. With treatment for mange, medicated baths, and ongoing allergy care, Gucci has recovered, his journey reminding us that compassion can turn suffering into healing.

ROMEO

Romeo came to us frightened, underweight, and battling severe skin issues. With daily medical care, love, and patience, he transformed into a bright, affectionate companion. Today, Romeo is thriving in his forever home, where he has blossomed. His happy ending was only possible through your compassion and kindness.

LILLY

Born with a deformed front leg and discarded by a backyard breeder, Lilly's life almost ended before it began. Instead, she was rescued and underwent successful amputation and spay surgeries. Through it all, Lilly's gentle spirit, playful energy, and endless tail wags never faded. Today, she's adored by her new family, enjoying stroller rides, snuggles and the spoiled life she has always deserved.

GRETCHEN

Gretchen's rescue revealed a heartbreaking past - discarded on the streets matted, soiled, and still drying up from nursing kittens, she had been bred, then abandoned. Despite her discomfort and severe gastrointestinal issues, her sweetness never wavered. With careful grooming, medical treatment, and a specialized diet, Gretchen's health and spirit flourished. Today, she's adored in her forever home, healthy, happy, and surrounded by love.

MEDICAL FUND IMPACT REPORT AUGUST 2025

TWIX

At just four months old, Twix was found blind, seizing, and terrified in a crowded shelter. A partnership allowed Twix to be rushed to a specialist. Diagnostics and an MRI offered hope for recovery despite her guarded condition. Now in a loving foster home, Twix continues to heal with resilience, surrounded by devoted care.

CONAN

Conan's rescue was nothing short of miraculous. Found terrified and injured on the median of Highway 280, he was pulled from traffic before it was too late. We welcomed him immediately, treating lacerations and road rash, likely from being struck. Conan's gentle nature is beginning to emerge as he learns to trust. His story reminds us that compassion can turn near tragedy into new beginnings.

SPROUT

Sprout was found freezing, anemic, and battling panleukopenia. She was rushed to the hospital, receiving blood transfusions, fluids, and intensive care to fight the virus. For a beautiful moment, Sprout began to brighten and play, but sadly she passed peacefully in loving arms, the virus overcoming her fragile body. Though her life was short, Sprout's fighting spirit inspired us to save more deserving lives in her honor.

MAE

Mae's journey began with impossible odds. Born without an anal opening due to a rare congenital condition, this tiny kitten never stopped living and loving. With specialized surgery and the dedication of her foster family, Mae has blossomed into a playful kitten filled with joy. Though she needs monitoring, Mae is thriving. She is ready for a forever home that will celebrate her "perfectly imperfect" spirit and the miracle of her survival.

MEDICAL FUND IMPACT REPORT SEPTEMBER 2025

PYM

Pym's story began in tragedy — found with a crushed, maggot-infested paw with bones exposed. Emergency amputation saved her life, but infection threatened her recovery. With dedicated medical care, hydrotherapy, and medicated baths, Pym fought through setbacks with unwavering courage. She has healed beautifully and blossomed into a loving, playful companion who is searching for her forever home!

VIENNA

Seven month old Vienna was found on the Paterson railroad tracks with a rope so painfully wound around her leg that she almost lost the limb. With swift action from animal control, our partners at Pitties & Pals, and a dedicated veterinary team, Vienna grows stronger each day. Beneath her scars shines an affectionate puppy who loves belly rubs, making friends, and discovering the world. With dedicated care, Vienna is well on her way to her happily ever after.

PARKER

Parker's journey began with pain, struggling through recurring urinary crystals and infections, leaving him weak and uncomfortable. In our care, Parker received the diagnostics, treatment, and special diet he needed to heal and thrive. Today, Parker is living his best life in his forever home, with alumni and fellow Dalmatian Lily!

BABY

Baby was born into the neglect of backyard breeding. At just 9 months old and 5 pounds, Baby was diagnosed with Legg-Calvé-Perthes disease, a degenerative hip condition requiring FHO surgery to relieve pain and restore her mobility. Despite her petite size, Baby fought through surgery and recovery, her gentle spirit never fading. As Baby heals, we are reminded that compassion can end the cycle of suffering and turn pain into hope.

MEDICAL FUND IMPACT REPORT SEPTEMBER 2025

CIDER

Cider was rescued covered in fleas and suffering from a severe respiratory infection that left his eye ruptured. At 16 weeks old, he required nebulizer treatments, antibiotics, and eye medications to ease his pain and help him breathe. With intensive care and your generosity, Cider was able to open his eyes again, eat and play.

SERJ

Serj was found on the streets emaciated, dehydrated, and barely able to breathe through a severe respiratory infection. Too weak to stand, he was stabilized with fluids, antibiotics, nebulizer treatments, and syringe feedings. With devoted care, Serj began to gain weight, open his eyes, and find his tiny voice. Serj's will to live shines brighter each day, proving the power of rescue – and loving care.

APOLLO

Apollo's rescue began with heartbreak – a tiny, visually impaired puppy fell from a ledge he couldn't see, shattering both front legs. We rushed Apollo to the hospital where he underwent orthopedic surgery to repair the fractures. Despite his pain, Apollo's resilience never wavered. He is now eating, walking, and showing his puppy spunk. Still needing future surgeries for his eye and neuter, Apollo's story is not yet over – but his future is so bright!

LINDA

Linda's story is a testament to our commitment to senior animals and rescue partnerships. When Linda, a senior chi mix, arrived overweight, struggling to breathe, and suffering from untreated hypothyroidism and an infected uterus, she needed urgent care. Thanks to lifesaving spay surgery and medical treatment, her strength – and her spark – began to return. Linda now enjoys the comfort, safety, and love she's waited for all her life!

MEDICAL FUND IMPACT REPORT OCTOBER 2025

TAZ & MARIGOLD

Found abandoned, Taz and Marigold were severely matted and covered in fleas, with signs of prolonged neglect. We provided urgent medical care and ongoing treatment to restore their comfort and health. With patience and compassion, fear turned to trust, coats healed, and both dogs made remarkable recoveries—proof of how donor support transforms neglect into new beginnings.

CORDELIA & TEMPERANCE

Animal Control contacted us about two young kittens, one with a severe degloving injury. Cordelia arrived with bruising, scrapes, ear damage, respiratory infection, and a tail injury requiring amputation. Temperance provided comfort to her sister throughout recovery. Today, both kittens are thriving, social, and energetic.

ABRAHAM

Found alone beneath a parked car, Abraham arrived at just weeks old with a spiral fracture of his front leg. Because he was too small for surgery, his injury was managed with splinting and close veterinary care. As he grew, his leg healed well. Abraham has since been adopted by his foster mom and is thriving in his new home.

RILEY

Riley, a senior Cavalier, arrived with chronic skin allergies, recurring ear infections, and untreated dry eye after years of neglect. He required medicated baths, allergy medications, prescription eye drops, and a special diet. Gentle and affectionate throughout his care, Riley healed beautifully and has since been adopted, now thriving in a loving home.

MEDICAL FUND IMPACT REPORT OCTOBER 2025

ELI

Working alongside a partner organization, we rescued Eli and three other dogs from a neglectful home. Eli, a 4-year-old Maltese, was diagnosed with Legg-Calvé-Perthes disease, a painful hip condition. After stabilization and neuter, he underwent a successful FHO surgery. Still shy but gentle, Eli grows stronger each day as he looks ahead to a bright future.

NICOLE

Nicole, a 9-year-old Morkie rescued from the same home as Eli, arrived with chronic ear infections, hair loss from long-term flea allergies, and a mammary mass. She was spayed, underwent tumor removal, and received treatment for her skin and ears. Despite all she endured, Nicole's sweet nature never faded, and her life now is filled with comfort and love.

MISS PRINCE

Miss Prince, a 7-year-old Maltese rescued alongside three others through our partnership with Second Chance Pet Adoption League, received much-needed care, including spay surgery and a major dental with multiple extractions that finally eased her discomfort. Though she has early cataracts, her gentle, quiet spirit shines as she settles into the peace and love she's found through rescue.

BONITA

Through a joint effort, Bonita, a tiny 4-year-old Maltese, arrived severely matted and frightened after prolonged neglect. With grooming, spay surgery, and a dental procedure, she finally felt safe and cared for. Bonita blossomed in our care and is now settling into a home where she is cherished.

MEDICAL FUND IMPACT REPORT OCTOBER 2025

VERONICA

Veronica, a 10-year-old Yorkie, entered our care after her owner's arrest showing clear signs of long-term neglect. Severely flea-infested with chronic skin infection and dental disease, she required medical treatment and multiple extractions. As she healed, her sweet, playful personality emerged. Veronica has since been adopted and is thriving in a loving home through our partner rescue.

VANNA

Seven-year-old Maltese Vanna was found as a stray, heavily matted and urine-soaked after prolonged neglect. She was groomed, spayed, and received dental care, finally experiencing relief and safety. Vanna proved to be gentle, affectionate, and trusting. Through continued collaboration with Second Chance, we supported her care as they placed her in a loving home.

VERA

Vera, a 2-year-old Morkie rescued as a stray, arrived terrified, matted, and underweight. Once her immediate grooming and medical needs were met, she began to show signs of trust. With love, she continued to build confidence and has blossomed into the little dog she was always meant to be.

MR. MAGOO

Mr. Magoo, a 12-year-old Yorkie, arrived after a lifetime of severe neglect, blind and in pain from advanced eye disease and dental decay. Untreated dry eye and infection left his eyes irreversibly damaged, requiring bilateral eye removal to give him relief. Surgery was successful, restoring his comfort and quality of life. Mr. Magoo has been adopted and lives safely and loved in his new home.

MEDICAL FUND IMPACT REPORT OCTOBER 2025

PEBBLES

Pebbles, a one-year-old mini doodle, came into care after the sudden onset of seizures and gastrointestinal distress. He was rushed to the hospital, stabilized, and began medical treatment. Since then, Pebbles has remained seizure-free. Gentle and affectionate, he continued to improve—and is now a cherished member of his new family.

DUKE

Duke, a 10-month-old Bernedoodle, was surrendered in critical condition after more than 10 days of worsening illness. He was diagnosed with an obstruction and aspiration pneumonia, requiring emergency surgery to remove a sock from his intestines. Duke recovered with intensive treatment and has since been adopted into a loving home.

LINUS

Linus was found frightened and trapped in an empty pool, underweight, dehydrated, and covered in a heavy infestation of fleas and ticks. Once safe in our care, he received urgent medical treatment, parasite removal, and supportive care. Beneath it all was a resilient, affectionate kitten. Linus was adopted the very day he became available and is now thriving in his forever home.

SHORTSTACK

Shortstack arrived weighing under a pound and battling a severe upper respiratory infection. He was refusing food and quickly declining, but with dedicated medical care and syringe feeding, he slowly stabilized and began to regain his kitten spark. After a long stretch of healing and devoted foster support, Shortstack is thriving—and has since been adopted.

MEDICAL FUND IMPACT REPORT NOVEMBER 2025

JOHNNYCAKE

Johnnycake came in with Shortstack, equally tiny and dangerously sick with a severe upper respiratory infection. Weak, dehydrated, and not eating, he required syringe feeding and round-the-clock care. Thanks to our dedicated medical team, he soon began eating, gaining strength, and even playing. It wasn't long before this little fighter recovered and found a loving home of his own.

GUPPY

Guppy was rescued alone at just 5 weeks old, covered in fleas and ticks and struggling to survive. Shy but sweet, he received treatment for parasites, anemia, and malnourishment. With a calm environment and patient handling, Guppy is gaining confidence and steadily growing into the playful kitten he's meant to be.

WHISPER

Whisper, a small senior mama, was rescued after living in a car with her two pups. Frightened and unkempt, she was diagnosed with heart disease requiring medication and monitoring. Despite her past, Whisper melts into gentle touch. She has since been welcomed into a loving family.

HARRY

Harry, Whisper's frightened 8-month-old puppy, knew only the backseat of a car before rescue. He was diagnosed with a mild congenital heart murmur that will need monitoring. With patient handling, Harry has begun to relax and trust. He is still searching for a home of his own.

MEDICAL FUND IMPACT REPORT NOVEMBER 2025

BARRY

Barry, Whisper's other 8-month-old pup, arrived trembling after spending his entire young life in a car. Scruffy and overwhelmed, he was also diagnosed with a mild heart murmur needing monitoring. With reassurance and the comfort of a loving home, Barry has learned to trust (and cuddle!).

SIMBA

Simba, a tiny 9-week-old doodle puppy, was surrendered after a week of worsening distress. Emergency surgery removed an 11-inch stick reaching from his esophagus to his stomach, along with chicken bones. Stabilized and finally comfortable, Simba continued healing in foster care and has been adopted by his doting foster family.

ESMERALDA

Esmeralda was found abandoned, emaciated, and fading after long-term starvation. She required hospitalization, IV support, a blood transfusion, and a careful re-feeding plan. Once stable, she was placed in a foster home through our partner rescue, Pitties 'n Pals. Esmeralda is gaining strength each day as her gentle spirit shines.

PANDA

Panda, a small Shih Tzu-Terrier mix from a Passaic hoarding case, arrived matted and frightened after living in filthy conditions. Following grooming and treatment for skin infection, her sweet, curious personality emerged. Now comfy, clean and safe, Panda is beloved by her new family.

MEDICAL FUND IMPACT REPORT NOVEMBER 2025

PANSY

Pansy, a 3-year-old from the Passaic hoarding case, arrived timid and heavily matted. With grooming, gentle care, and time to decompress, she began to relax and trust. Pansy is now flourishing in her forever home.

PETER

Peter, a 5-year-old Shih Tzu-Terrier mix, was rescued from the Passaic hoarding case after years in crowded, unsanitary conditions. Once groomed and treated, his affectionate nature quickly appeared. Peter has since been adopted and is adored in her new home.

PEE WEE

Pee Wee, a fragile 5-year-old weighing just 3 pounds, was pulled from the Passaic hoarding case severely matted and neglected. After careful grooming and veterinary care, his adorable personality emerged. Pee Wee is settling beautifully with his new family.

WANDA

Wanda, a 2-year-old from the Passaic hoarding case, arrived scared, matted, and under-socialized. With grooming, vet care, and quiet decompression, her sweet personality began to shine. Wanda is finally living the life she always deserved in her forever home.

MEDICAL FUND IMPACT REPORT DECEMBER 2025

WILMA

Wilma, a 7-month-old survivor of the Passaic hoarding case, arrived matted, fearful, and overwhelmed. After grooming and supportive care, she began showing her playful, affectionate side. Wilma has been embraced by a family who has welcomed her – and just adores their adorable little girl!

LANEY

Laney arrived severely emaciated and trembling, revealing long-term starvation. She required emergency hospitalization, IV support, slow re-feeding, and monitoring for anemia and serious gastrointestinal issues. Thanks to intensive care and community support, Laney stabilized and is recovering surrounded by love in a medical foster home.

LAYLA

Layla, a 6-year-old Lab mix, was surrendered with a huge tumor on her lower abdomen. This mass had grown for years with no medical attention. We rushed her for diagnostics and surgery, where the 4.9 pound mass was successfully removed – and amazingly confirmed benign! Layla has been welcomed into a loving home where she's finally receiving the devoted care she always deserved.

MILLIE

Millie, a senior sheepadoodle surrendered in a cruelty case, arrived dangerously underweight with infected ears and severe matting. She required careful nutritional support, GI treatment, and close monitoring. With dedicated veterinary care and a nurturing foster, Millie regained weight and strength and is now cherished by her new family.

MEDICAL FUND IMPACT REPORT DECEMBER 2025

MAGNUS

Magnus, a 17-year-old cat, was put outside during freezing weather, replaced by a new kitten in the home. Found cold and disoriented, he came to us with FIV, mild kidney disease, anemia, and age-related vision and hearing loss. Gentle and appreciative of comfort and warmth, Magnus is now safe and stable while seeking a quiet hospice or adoptive home.

JAVA

Java arrived as a fragile bottle baby and was soon diagnosed with a chest deformity, pectus excavatum, and a suspected liver abnormality after failing to thrive. With diagnostics, supportive care, and a tailored diet, he began gaining weight and strength. Lively and affectionate, Java continues to do well in foster care and is seeking a forever home.

OTTER

Otter, a 6-month-old kitten found limping in frigid weather, arrived with a chronic growth-plate fracture that was misaligned and causing significant pain. Amputation offered her the best chance at a full, pain-free life. She recovered quickly after surgery and blossomed into a social, spirited young kitten. Otter has since been adopted into a loving home who appreciate how perfectly imperfect she is!
